Office Action Summary

REST AVAILABLE COPY

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 13-16 are rejected under 35 U.S.C. 102(b) as being anticipated by Brine.

Brine teaches polymers of lactic acid with a molecular weight of 2500-4500 (abstract). Terpolymers with other hydroxyl carboxylic acids such as glycolic acid, ϵ -caprolactone and valerolactone are specified (column 3 lines 28-32). Glass transition temperatures of 26°C to – 65°C are specified (column 3 lines 52-53).

Pharmaceutically active agents are disclosed. (column 3 line 61). Calcium sulfate is specified (column 5 line 15).

Applicants argue that Brine does not teach a terpolymer, however, column 4 lines 60-64 clearly teaches such. Applicant's argument regarding the incompatibility of sticky polymers and tableting is mere speculation.

Claims 13-18 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 3, 13, 14, 16 "Derived" is vague. It is unclear as to whether derivatives of the recited hydroxy carboxylic acids are intended.

Applicants argue that "Derived From" provides clarity, however, the term suggests unspecified derivatives. The examiner suggests "comprised of".

Claims 1-12 allowed. Claims 13-18 are rejected.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Edward Webman whose telephone number is (703) 308-4432. The examiner can normally be reached on Monday to Friday 9 Am 5 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, S. Padmanabhan can be reached on (703) 305-1877.
